

TEACH Act Implementation Checklist

Although the TEACH Act provides greater latitude regarding usage of media materials in distance education courses, it also is accompanied by enhanced stipulations in its implementation.

Qualifications

- Accredited nonprofit educational institution
- Material is part of systematic mediated instructional activities

Notices and Education

- Institutional copyright use policy
- Copyright education for instructors and students

Lawfulness

- Digital material has not been produced by a digital education publisher
- All digital material is lawfully made and acquired

Access Control

- Limited to students enrolled in course
- Reasonable copy control instituted

Relevance

- Digital material is essential and integral to the course
- Material is directly related to teaching lessons or other objectives

Specific Usage

- Copyright notice present on all materials used in course
- "Reasonable and limited" portions of media used
