

Creating Zaptions with ASU YouTube Videos

Summary: This tutorial will show you how to add videos either creating with the ASU TechSmith Relay video system or you can upload your own videos to YouTube.

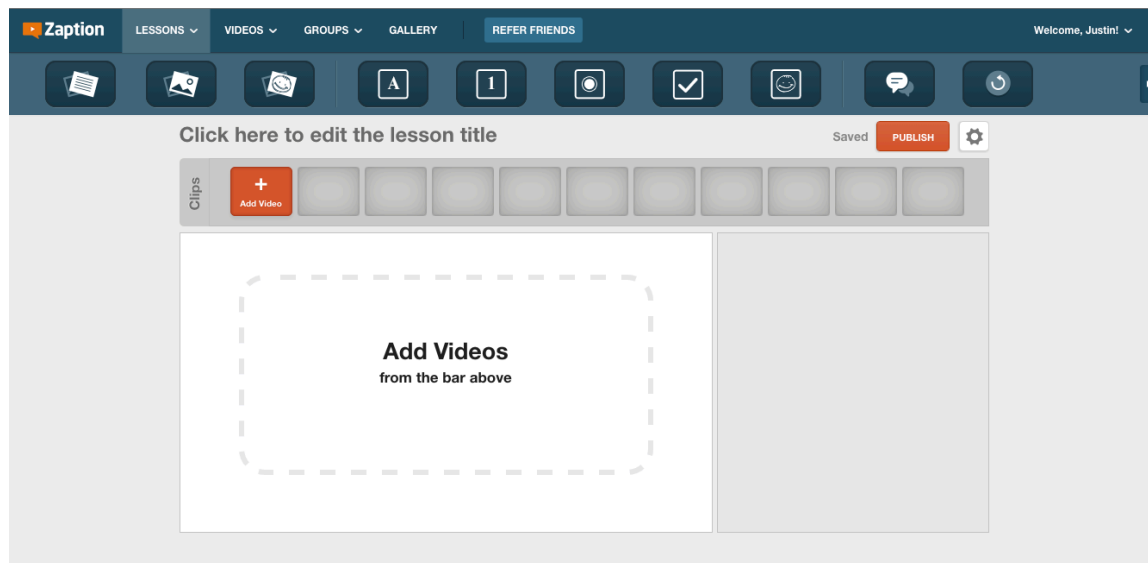

**** This tutorial is dependent on the successful connection of a YouTube publishing profile with the ASU TechSmith Relay tool. ****

If you have not set up and connected Relay with YouTube please see that tutorial.

1. Access the Zaption video authoring tool in your Blackboard course.

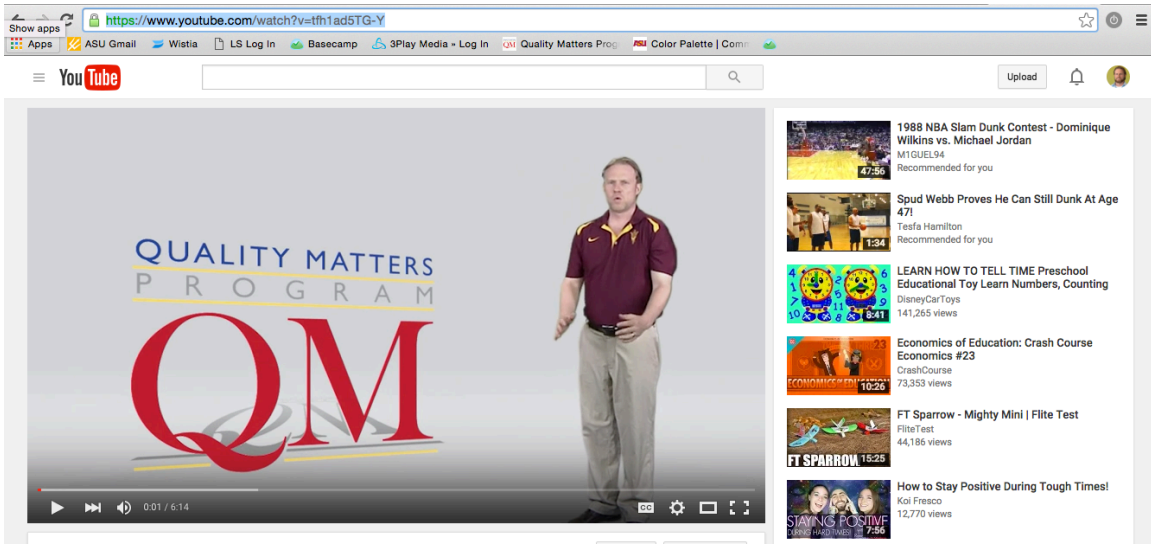

https://asu.service-now.com/kb_view_customer.do?sysparm_article=KB0012486

2. Create a new lesson and click on the “Add Video” orange button in the lesson editor.

3. Copy the video link to your YouTube Video.

****Make sure that your video is set to “unlisted” and not “private” to be able to pull it into the Zaption editor.**

4. Paste the link for the YouTube video in the search box . Zaption will import your video from YouTube.
