

SCREENCAST-O-MATIC PUBLISHING PROFILES

★ ★ ★ ★ PRESENTS ★ ★ ★ ★

MediaAMP®

VS

YouTube

You want the videos...
Available from within any Bb course via
centralized repository.
Available via Bb content editor.

WHEN TO USE

You want...
To create closed captions for the video.
Viewers to be able to use speed controls.

One email confirms that your
video is processing.

NOTIFICATIONS

One email confirms that your video is
processing; a second email tells you when your
video is ready to play.

Videos can be accessed from
Blackboard courses only.

PRIVACY

YouTube videos are available in Bb through a link
or embed. Videos may be made: "Unlisted"
-available only to those with the link, or "Public"
-visible to the world.

Information only (title, descriptions,
and tags).

EDITING OPTIONS AFTER RELAY RECORDING

Information (title, descriptions, tags) video
trimming, audio, annotations, and
stabilization.

Processing time depends on server
workload.

PROCESSING TIME

Usually real-time (e.g., 10 min presentation
takes 10 mins to process).

Player can accept closed caption files.
Requires request for the 508
compliant player.

ACCESSIBILITY

Captions can be auto-generated and then
manually edited. Player is 508 compliant.

Share with other ASU employees via
ASURITE.

COLLABORATION

Share video with anyone by using a link
(both unlisted and public videos).

None at this time.

ANALYTICS

Plays and engagement reporting.

UTO Help Desk 24/7 support via
email/phone/chat.
